## Cell Size Chart

Thicknesses available  
11mm to 81mm

## Hexa Haze

Hexa Haze is our line of light and sturdy frost finished panels. Aluminium honeycomb core is flanked by matte Acrylic facings allowing this combination to bring about a wonderful pixelated shadow effect.

## Hexa Clear

Hexa Clear is our line of transparent clear panels which have clear acrylic facings allowing it to be used instead of glass. Clear is the answer to all your privacy and daylighting needs.

## Hexa Pulp

Hexa Pulp is our line of paper honeycomb core panels. While being completely recyclable, it is also the most economical option of the lot. They come with clear and frost finished facings.

## Hexa Glaze

Hexa Glaze is our line of transparent coloured panels. Flanked by coloured Acrylic facings, Haze comes in a wide variety of colours and can bring any space to life.

## Halo Clear

Halo Clear is our line of transparent coloured panels. Flanked by coloured Acrylic facings, Haze comes in a wide variety of colours and can bring any space to life.

## Halo Hue

Halo Hue is our line of coloured circular honeycomb core panels. Flanked by clear acrylic sheets, Hue has coloured circular PP honeycomb core.
